- HTML,CSS & JS

SOFT SKILLS

- Communication
- Presentation
- Project Planning
- Teamwork

PROJECTS

- **Statistical Data Analysis using Google Forms & Excel**
  Collected and analyzed comment data using Google Forms and Excel; performed statistical evaluation.
- **DesignNest:Interior Design Booking System**

  DesignNest is a web-based interior design booking system developed using HTML, CSS, JavaScript, and SQL. It enables users to browse interior design services, submit booking requests, and manage appointments through an interactive interface. The system uses SQL for secure data storage and JavaScript for form validation and dynamic functionality, ensuring efficient and user-friendly service management.
